Problem Set 3

Ana Gallart

February 12, 2023

1. How big was the insurance .csv file (once uncompressed)? (what was the output in 3(e)?) – 5MB

2. . How many lines did the CSV file have before doing the end-of-line (EOL) conversion? (3(g)) – 0 lines

3. How many lines did the CSV file have after doing the EOL conversion? (3(j)) – 36634 lines
